This bulletin addresses:		Recommended Implementation is:	
	Documentation Changes	X	**Now for all affected units**
	Hardware Service Issues		All affected units during next service visit
X	**Software Announcements**		Optional
	Technical Tips		No implementation required

DESCRIPTION:

Triton announces that Glory Global Solutions (formerly Talaris) has released **Firmware Version 2001-40.04** for the NMD100 (Rev 12) CMC. The NMD100 must be using a Note Feeder Controller with firmware version 2006-08.01. Only following combinations will work with the new firmware.

CMC FW 2001-40.04	NFC FW 2006-08.01	NQ200	NF200	NQ300	NF300

Per Glory, this firmware will provide "smarter cassette logics and more robust open close routines."

Firmware 2001-40.04 is available on the Triton partner web site (www.TritonATM.com). Loading of the firmware onto the NMD can be accomplished using the NMD Test application. If you do not have NMD test, contact Triton to determine the actions necessary to return your NMD/CMC for upgrade.

If you have any questions, please contact Technical Support or our Parts Department at 1-228-575-3100 from outside North America or toll free in the U.S./ Canada 1-800-259-6672 or visit www.Triton.com for additional information.
