	Software Announcements
	Technical Tips

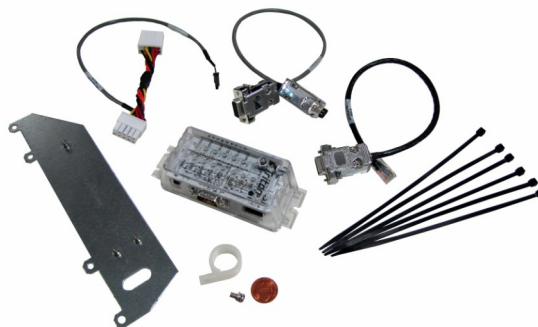

Recommended Implementation is:	
	Now for all affected units
	All affected units during next service visit
X	Optional
	No implementation required

DESCRIPTION:

Triton announces the release of the Advanced Security Module upgrade kit for Traverse ATMs with a HCDU or SCDU dispenser and 3.2.0 SP2 software to support the upgrade.

All Traverse units with a HCDU or SCDU manufactured after January 30, 2014 had the Advanced Security Module installed.

A complete kit including: the Advanced Security Module, mounting bracket, controller to SM extension cable, power splitter cable, SM to Mech communication cable, a quick release cable clip and one screw is available on www.ATMGurus.com as part # [06200-00189](http://www.ATMGurus.com).

This software should be installed on 3.2.0 SP1. After loading the update, the program build in the configuration summary will indicate version 3.2.0.31.

For the importance of upgrading your unit, please reference [Tech Bulletin 13-29](#).

This software load and release notes can be found on www.TritonATM.com.
