TECHNICAL BULLETIN: 15-08

DATE: May 26, 2015

SUBJECT: Release of the Smart Card for testing EMV Card Readers

AVAILABILITY: All Authorized Triton Distributors and Third Party Service Providers

This bulletin addresses:	
	Hardware Service Issues
X	New Kit/Parts Available
	Software Announcements
	Technical Tips

Recommended Implementation is:	
	Now for all affected units
	All affected units during next service visit
X	Optional
	No implementation required

DESCRIPTION:

Triton announces the release of a smart test card that can be used to test EMV card readers. The test card will respond to the smart card power-on software command with an answer-to-reset (ATR) text string to verify basic functionality. The smart card also has a three-track mag-stripe that is encoded with data. The mag-stripe data for all three tracks and the ATR are displayed on-screen after a scan card test is performed in Management Functions on the ATM.

This kit includes 4 card reader cards and is available as part #[06200-10026](#) on www.atmgurus.com.
