X	New Kit/Parts Available
	Software Announcements
	Technical Tips

Recommended Implementation is:	
	Now for all affected units
	All affected units during next service visit
	Optional
	No implementation required

DESCRIPTION:

Triton announces the release of a new packaging design for Glory NMD100 dispensers to maximize the protection during shipment, and minimize the setup time.

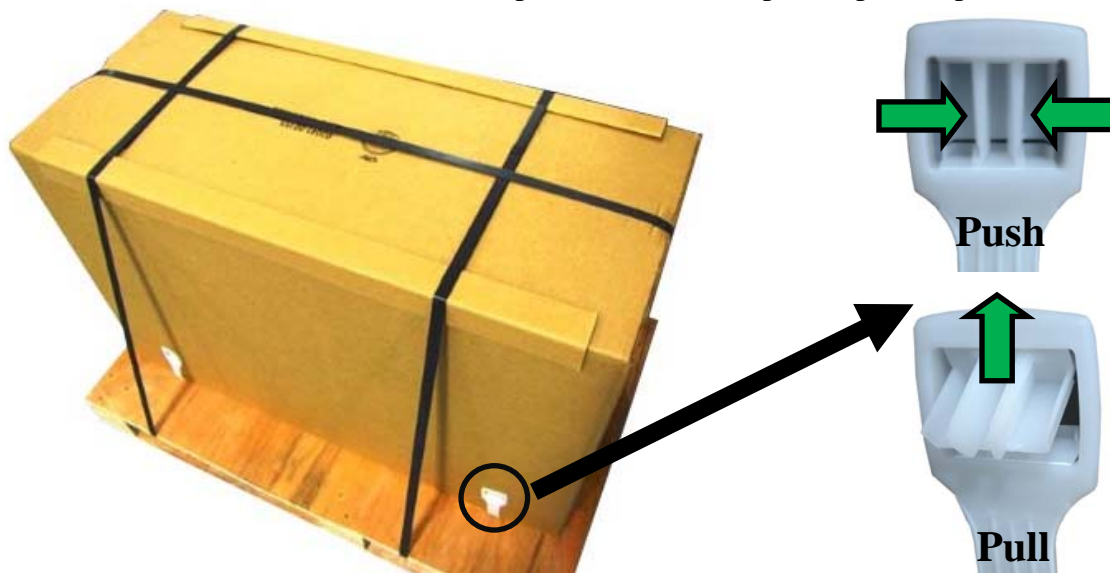

As of July 1, 2016, all new, core, and repaired NMD100s will be shipped freight on a pallet.

Overnight or Express deliveries will not be available after July 1st, including warranty shipments.

In order to facilitate the safe delivery of the NMD100 dispenser, Triton has redesigned the packing materials. This packaging change will encompass new, refurbished and repair orders. All NMD100 dispenser orders, including repair, are required to be placed through Triton's Customer Service. As a result of this packaging change, and corresponding freight limitations, shipment costs will increase.

To place an order and to obtain the correct freight cost, please contact Customer Service at 888-728-6487.

The NMD100 will be delivered on a custom pallet with an over pack top lid to protect the dispenser.

To remove lid, cut packaging bands and release packaging clips.

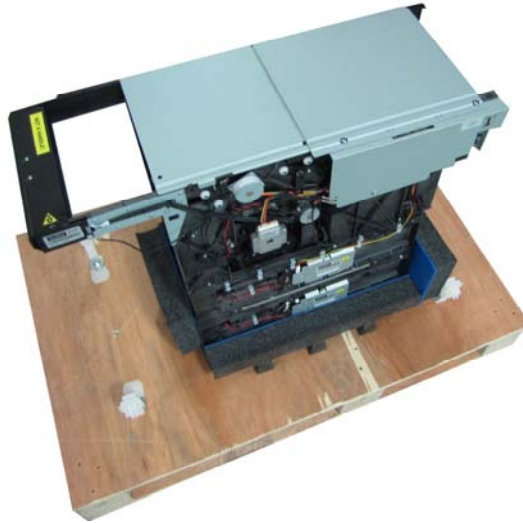

Packaging Clips

TECHNICAL BULLETIN

DESCRIPTION: (Cont.)

This new packaging will allow Triton to ship NMD-100s fully assembled and ready for installation.

To use the new packaging for returning NMD100 to Triton, extra bands and instructions will be included with each NMD100.

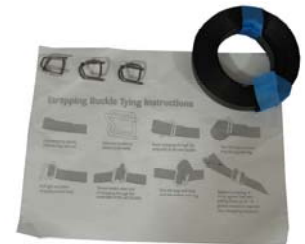

To minimize shipping cost returning NMD100s, the current packaging kit, 06300-00100, will still be available. The new packaging kit, 06300-00101, is also available and includes all materials and instructions. Kit 06300-00102 only contains extra bands and clips.
