SUBJECT:

RELEASE OF 4.1 SOFTWARE FOR ARGO 12 X3 CE7

TECHNICAL BULLETIN: 17-07

DATE: JUNE 01, 2017

Confidential - Available to all authorized Triton distributors and third party service providers

OPTIONAL UPGRADE − RELEASE OF US, CANADIAN, AND AUSTRALIAN VERSION 4.1 SOFTWARE FOR ARGO 12 X3 CE7

Triton announces the release of version 4.1 software for ARGO 12 X3 CE7. This release includes numerous changes and improvements, such as a new Management Functions user interface, dynamic currency conversion (DCC), and charity configuration options. This software requires the Triton X3 CE7 main board, a Sankyo ICM33B anti-skim or ICM330 EMV card reader, and either an SDD, Mini Mech, NMD50, SCDU, or HCDU dispenser.

The following load file is included in this upgrade. The program build after loading will be **4.1.0.24** and the screen file will be **SCSF0029**. Software can be found at **www.tritonatm.com**.

Model	File
ARGO 12 X3 CE7	**t-fs-scsf-4.1.0.24.tr7**

New Management Functions user interface:
Version 4.1 for ARGO 12 now includes a new interface. Some menus have been modified to create sub-menus to accommodate the 10-selections-per-screen limitation in the new interface. Customers also have the ability to use the older 4.0 style by navigating to *Management Functions > System Parameters > Disable ARGO UI.*

ECO: 1031592

Dynamic Currency Conversion (DCC):

This software includes the capability to enable DCC, which allows the amount debited to be displayed in the customer's home currency with host processor support.

Charity Configurations:

A new transaction type has been added so that customers may perform a charity donation. This action can be performed as a standalone transaction or as part of an ATM transaction.

For detailed information on the above options and other improvements, please read the full release notes at **www.tritonatm.com**.
