(Printer/Presenter Assembly Field Upgrade Procedures)

Terminal software has been updated to be compatible with the new printer/presenter assemblies on the RL/FT5000 and RT2000 units. Please refer to the following table for which software to load.

Page 18: (Under "Updating Terminal Software RL/FT5000/RT2000")

The table below lists the **Update Load Files** *(except for the Netherlands)* now included in the new printer/presenter upgrade kits. Note that if the current version of software loaded is equal to or greater than the version listed here, you do not need load a new update file.

Country	Display	Version	Load File
Australia	10.4" VGA Color	1.5.3	XU00XAUS1.5.3.tlf
Canada	10.4" VGA Color	1.7.0	XU00XCAN1.7.0.tlf
Canada	6.5" VGA Color (RT2000)	1.7.0	XU00VCAN1.7.0.tlf
Canada	5.7" QVGA Mono (RT2000)	1.7.0	XU00QCAN1.7.0.tlf
Netherlands	10.4" VGA Color	1.7.2	*XD00XFBN1.7.2.tlf
South Africa	10.4" VGA Color	1.7.0	XU00XSAF1.7.0.tlf
UK	10.4" VGA Color	1.7.0	XU04XEMV1.7.0.tlf
US	10.4" VGA Color	1.7.1	XU00XVAS1.7.1.tlf
US	6.5" VGA Color (RT2000)	1.7.0	XU00VVAS1.7.0.tlf
US	5.7" QVGA Mono (RT2000)	1.7.0	XU00QVAS1.7.0.tlf
* This file is a **FULL LOAD** file. See ***NOTE*** (Full Load vs Update) on page 20.			

After installing the new printer presenter and loading the proper software, please verify the presenter version is correct by entering Management Functions and browse to *Diagnostics / Printer / Device Status*. The report should list "Presenter Version" as 19 or greater.

If you have previously loaded custom terminal software or screen file that is not listed above, please contact Triton Systems Technical Support for the proper version of your custom software to load.
